# GEORGE KOVACS®

In 1954, George Kovacs opened a small import store in Manhattan for modern and avant-garde lighting, starting a revolution in the landscape of design and illumination.

By the early 2000s, the George Kovacs® brand had catapulted to success by staying ahead of trends and propelling an appreciation for modern interior design within the USA. George Kovacs® Lighting was licensed to The Minka Group® in 2002 and today continues to be the benchmark of both design technology and superior contemporary style.

# SNEER

COAL AND SUN GOLD • TINTED GLASS

Artisan crafted Tinted Glass is the signature of the Sneer collection. While the artful design of the glass is a showstopper, the Sun Gold caps of illumination dangling from slender aircraft cable gives the entire collection the illusion of floating.

# GK LIGHTRAIL®

LOW VOLTAGE

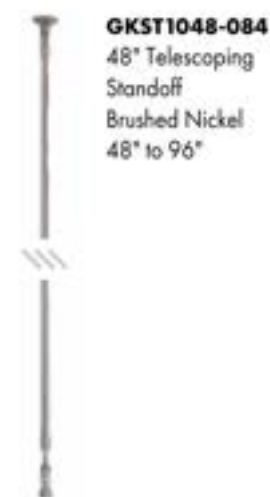

## GK LIGHTRAIL®

Welcome to the world of George Kovacs® lighting. GK LIGHTRAIL® kits represent a fresh approach to the concept of rail lighting. Available in low voltage and 110 voltage kits, our complete Lightrail kits offer all the components you need neatly packaged together for an all inclusive installation. Simply add additional rail sections or different size standoffs to increase the customization of your GK LIGHTRAIL® kit.

Standoffs should be placed no further than 3' apart. Measure the ceiling height and where the rail is to be situated. The rail should not be placed any lower than 7" from the floor. Use the Rail Standoff Guide below to determine which standoffs should be used. The standoffs are telescopic and come with a hang-straight swivel for higher, sloped ceilings.
