Visio

An echo of allusions to the Surrealist world, layers of meaning to be discovered one by one in the many different possible configurations of Visio's facial geometries, an homage to the iconographic apparatus and expressiveness of the face. An aesthetic vocabulary, one of Visio, where the union of mysticism and geometry creates unpredictable variations on the theme of imagination.

Cordea

Cordea was born out of the desire to reinterpret the classic industrial lamp with an aluminium lamellar head in a contemporary way, from an aesthetic and material perspective. The expertly forged metal frame features a contrasting leather strap.

Tee

TEE PL5

Tee is an exploratory design exercise which balances rigour and elegance, aesthetically distinguished by its curved form. Light spheres are brought to life by contours that reflect the undulating nature of light, connected on organically shaped stems, reminiscent of the gracefulness of the calla lily flower.

Iglù

IGLÙ S6+1

Iglù is an intuition born from observing the perfection of the sphere, transformed into a perfect, recognisable and unique shape by mesh that, rather than obstruct the light, instead creates a pattern of light and shadow, transforming the metal into a luminous jewel.

Horo

HORO S5

Horo is inspired by the shape of a circle in all its infinite expressions such as the sun, a disc of light and a universally recognised symbol, as old as the world itself. Horo is a simple, minimal collection, a “graphic form” given a vintage mood by the special metal and glass finishes.

Vegas

Vegas is loosely inspired by the architecture of Las Vegas, the city that never sleeps. With their classic geometric style, the iconic Art Deco lights are reinterpreted in a contemporary key, combining glass and metal using the most modern manufacturing techniques.

Honicé

HONICÉ S80

Honicé is inspired by the beauty and majesty of onyx, one of the oldest stones in the world. Legend has it that onyx was created when Cupid cut Venus' nails. Since the parts of a divine being cannot be mortal, the gods transformed them into a gemstone, onyx. It has something magical about it, a thin skin of stone, but transparent. Honicé brings brightness and luminosity to the solidity of marble.

Nappe

The Nappe collection is an expression of the company's close ties to the local area. It is inspired by the "nappine" (tassels), typically used to close curtains and adorn Venetian salons in the old days. Ten different tassel shapes have been stylised by disassembling and simplifying these decorative objects.

Olà

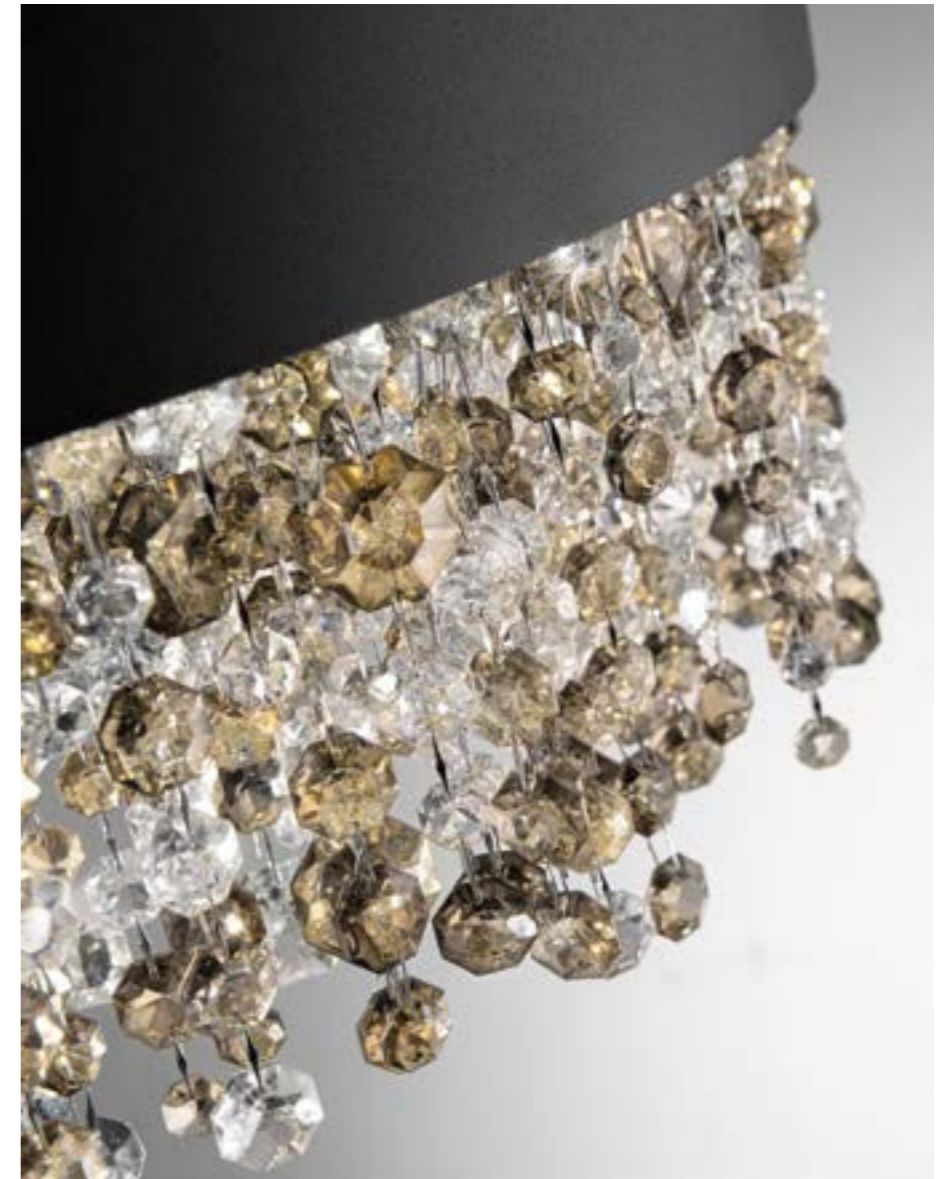

OLA S6 90

A jewel of design born from a synthesis of experience and creativity. Designed more than a decade ago by Masiero's creative atelier, the contrast between its simple metal frame and luxurious cascade of pendants makes Olà a Masiero icon.

Eva

EVA S10

Not by chance we named it Eva. The Eva collection magnificently embodies the modern interpretation of classic chandeliers. Like a freshly opened flower, it enchants you with its fluid sinuosity, conveying a sense of peace and contentment.

* : ONLY FOR THE US MARKET.

Sound

What form would sound take if it were a product? The design of Sound speaks to our senses, illuminating our minds and souls through the idea of a harmonious melody of design. Sound is a formal semantic experiment. It is a synaesthesia. Sound is a combination of circular elements evoking the expansion of sound waves.

Papilio

PAPILIO S3 P

This collection is inspired by the swallowtail (Papilio Machaon Linnaeus), a rare species of butterfly that spreads its wings in flight, creating a dance in the air and showing off its beauty. It was born in 2019... and since then, has never stopped fluttering its wings.

Timeo

TIMEO C3 LN 75

This collection of lamps stands out for the interplay of geometries and regularity of the shapes. It takes its name from Plato's dialogue, the Timaeus, the basic text of cosmogony outlining the concept of Platonic solids.

Libe

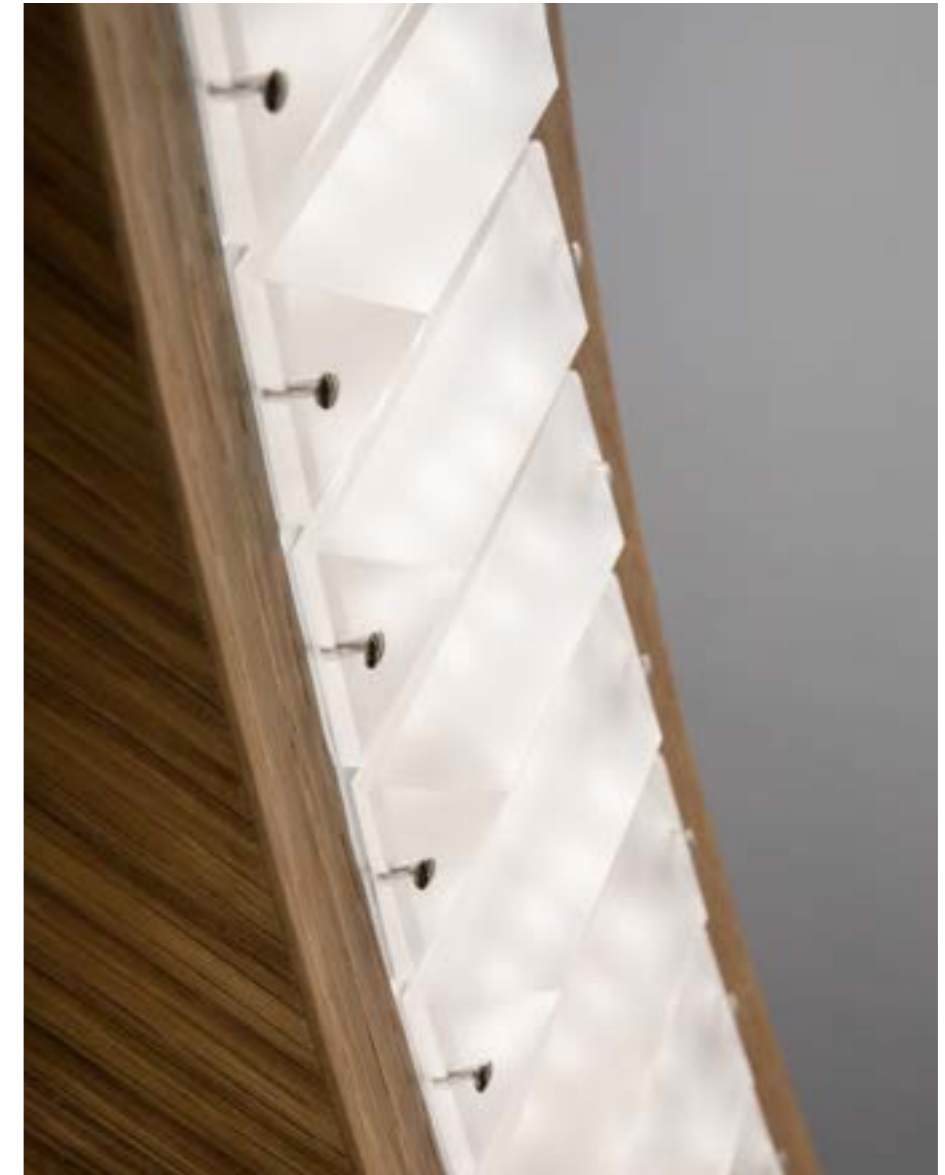

A perfect design, where simple, linear geometric shapes take concrete form in an object. As if by magic, a pencil stroke becomes reality, thanks to skilful hands and precious materials such as wood, brass and crystal lozenges.

Palm

The Palm applique is a modular wall system reminiscent of the graceful movement of leaves. Inspired by nature, Palm's modularity makes it perfect as a wall decoration. Made up of interlocking shapes, the project is conceived to be composed like a jigsaw puzzle.
