2025

To Our Valued Customers,

As Hubbardton Forge begins our 51st year, we want to thank you for your continued partnership and for celebrating our 50th anniversary with us throughout the past year. Your support made this milestone especially meaningful.

This year is particularly exciting for us, as this catalog introduces our strongest lineup of new products yet. Decades of experience, innovation, and collaboration have culminated in what we believe will be our most exceptional collection to date, and we can't wait to share it with you.

Over the past five decades, your trust and feedback have been essential to our success, challenging us to consistently improve and deliver products of the highest quality. As we look ahead, we remain committed to the values and relationships that have brought us to this point.

Thank you for being an essential part of our journey. We look forward to many more years of growth and collaboration together.

Sincerely,
Maria L. Mullen
CEO

HUBBARDTON FORGE.

PARTNERSHIPS

We work with local partners and artisans who provide many of the components used in making our products. This allows us a level of quality that is unparalleled. Our partners work with us to develop the exact pieces, whether it be LED technology or chiseled slate, maple wood or handcrafted leather, handblown glass or fabric shades. Involving our local partners throughout the process ensures the best possible end product. Local partnerships also allow us to ensure reliability in our deliveries, helping you keep your promises to clients.

RELIABLE. AMERICAN. MAKERS.

INTERIOR FINISHES

● = TRANSLUCENT
 ◎ = OPAQUE

COASTAL OUTDOOR FINISHES

Hubbardton Forge offers some of the most robust, environmentally-friendly finishes available for exterior lighting fixtures, and continuously works to improve durability with new formulations that are rigorously tested.

The American Architectural Manufacturers Association, who sets the standards for coating performance on architectural applications, has designated all of our **Coastal Outdoor Finishes as AAMA 2604-certified, meeting the highest standard in durable, weather resistant finishes available**. They are corrosion-resistant and color-fast, with significant protection against harmful UV rays. These coatings deliver exceptional hardness and scratch resistance for enhanced performance in seacoast environments. AAMA 2604-rated finishes, also known as “Super Durable Polyester powders”, are the same quality and standard that is used on aluminum-clad buildings. Why is this important? So that your exterior lighting fixtures remain not just beautiful, but protected, for years to come. Need LEED credits? These powder coat finishes emit zero-VOCs and can contribute toward your LEED certification, according to the US Green Building Council.

We offer a Lifetime Limited Warranty on *ALL* of our Coastal Outdoor Finishes, unless you are 10 miles or less from a seacoast, in which case we offer a 5-year warranty. See complete Lifetime Limited Warranty details on our website.

CUSTOMS

We Can Do That!

With a dedicated, in-house Customs Team, Hubbardton Forge is able to work directly with you to provide the right lighting solution for your needs. Designers, engineers, prototype & tooling, manufacturing...it's all under one roof in Castleton, Vermont. What does that mean for you? We can quickly turn around a request with unsurpassed quality control and reliable lead times. And you can be sure that you'll receive a high-quality final product, with your own personal stamp on it. Inspired by one of our existing products, but need it longer, shorter, wider, taller? Talk with us. We're the experts at modifying a design to give you the customization that you require. Design through delivery, we offer exceptional service and a streamlined process—ensuring your made-to-order piece is on-time and on-budget.

SNAPS

CREATIVITY UNLEASHED

Whatever the size, however unique the space, SNAPS can be your solution.

Modular and scalable, this can easily be configured to almost any shape and dimensions you can imagine.

FREEDOM TO DESIGN

"I realized that if the conductor becomes a beautiful thing, then suddenly, it unlocks new doors. With SNAPS, the conductive leather straps are the essence of the fixture."

Andy Minton

VERSATILE LIGHTING SYSTEM

With so many potential applications and endless configurations, your design possibilities are limitless.

Learn more about SNAPS

CUSTOMIZABLE

Should our standard leather options not be exactly what you're looking for, with Spinneybeck as our partner, you can customize SNAPS from a large portfolio of custom leather colors and textures to suit your design.

ABACUS

Longer, shorter, wider...We can do that!
The customizable nature of the Abacus is endless. Either side of a headboard, a 30' space divider with 15' ceilings, above a 10' long island, or over a dining table...the Abacus is as versatile as it gets. Custom options are available to accommodate specific applications.

LED TECHNOLOGY

Glass globes are individually lit via a frosted LED tube, powered by low-voltage cables.

CUSTOM OPTIONS

Working with local Vermont artisans, we can create custom colors and shapes to suit any design needs.

ADJUSTABLE

True to its namesake, the Abacus moves up and down its cable "rails" by virtue of tiny grippers on each side that, when squeezed, free the globe to slide and stop exactly where you want to position it.

GATSBY

LED TECHNOLOGY

Faceted crystal elements are individually lit via a frosted LED tube, powered by low-voltage cables.

CUSTOM OPTIONS

Want additional stunning Crystal+LED components for your pendant?
You can do that!

ADJUSTABLE

The Gatsby crystal moves up and down its cable “rails” by virtue of tiny grippers on each side that, when squeezed, free the globe to slide and stop exactly where you want to position it.

Multi-Port Systems

A collection of highly-customizable multi-port designs feature cascading light and are suited to a variety of spaces. From dramatic stairwells to foyers and reception areas, to dining and more, these multi-ports feature pendants that may be individually aligned or staggered at desired lengths to customize the design. With canopies that can easily be raised or lowered via cables, installation time is significantly reduced. Easy access to electrical components make these pendants fully field-adjustable. All Hubbardton Forge products are designed, engineered, manufactured using domestic materials whenever possible, and shipped from Castleton, Vermont.

WHAT SETS APART OUR MULTI-PORTS?

- **Adjustability**
- **Ease of Installation**
- **Accessible Electrical Components**
- **Fully Field-Adjustable**
- **Highly-Customizable**
- **11 Standard Interior Finishes**
- **Made-to-Order**
- **Short Lead Time: 3-4 weeks for Standard Products**

MULTI-PORT SYSTEMS

MULTI-PORT SYSTEMS

61

Light-Guide Systems

It began with the design of our Zephyr Pendant, in search of the ability to have light be an integral part of the design itself...to capture the “fluidity” of light.

Working with local, Vermont partners in LED technologies and laser engraving, we developed LED Light-guide systems with proprietary, etched patterns in acrylic that draw the light from end to end. Light travels in a straight line until something refracts, reflects or bends the light through the acrylic, guiding it from LEDs at the end of the form until it escapes any of the thousands of laser-etched points in a proprietary precision matrix on its surface. With our LED light-guides, there is an even distribution of light, vs the “hot spots” often associated with classic LED diodes.

Today, in addition to several free-flowing designs like the Zephyr and Mobius, we offer Linear, Circular and Sconce Light-Guide Platforms for a variety of products. Light-guide platforms may also be customized in length, width and shape to suit custom projects.

WHAT MAKES OUR LED LIGHT-GUIDES UNIQUE?

- **Ease of Installation**
- **Even Light Distribution**
- **Locally-sourced LEDs**
- **Accessible Electrical Components**
- **Fully Field-Adjustable**
- **LED component can be easily replaced, if needed**
- **Customizable**
- **11 Standard Interior Finishes**
- **Short Lead Time: 3-4 weeks for Standard Products**

ART + ALCHEMY

by HUBBARDTON FORGE

ärt
the expression or application
of human creative skill
and imagination

alkēmē
the ancient process of
transforming essential base
metal into gold

Art + Alchemy designs are both sculptural and distinctive. They are created in our workroom, a collaborative space where designers and engineers come together. From concept through development and fabrication, this is a space where we throw out the book and think without restrictions. It is a place to let the imagination take us on journeys to create pieces that push the boundaries.

Once the design concept is proven, manufacturing the product using custom tooling proceeds. A choice of 11 standard finishes are available; or we can custom-match any RAL color for you. And, with all of our Prototype & Tooling done on-premise, our team can work with you to customize dimensions and aspects of any product in our Art + Alchemy collection to suit a specific project.

SNAPS

CREATIVITY UNLEASHED

The beauty of SNAPS lies not only in the flow and movement of the leather straps and hand-carved alabaster stone, but in its versatility. Both modular and scalable, SNAPS is a lighting system that can adapt to and enhance any space. With five basic products, plus optional extension straps (4 additional straps in 2 different lengths, offered with and without LED alabaster modules) to create longer lengths or more intricate designs, and an array of custom leather options from which to choose, SNAPS can be configured to create a design that is uniquely yours.

NEW

NEW

Soiva is a third generation, high-quality Italian glassworks company, proudly carrying on a tradition incorporating their inimitable know-how—the foundation of excellence in Venetian glass art for over 60 years. Each phase of development is conducted exclusively within Soiva—from design and hot production to creation of the moulds, to the cutting and polishing processes. Each piece of Soiva’s unique Venetian glass is exquisite.

CHERRY

This beautiful, warm, cherry hardwood is milled and hand-finished in the northern regions of the Green Mountain State.

SIERRA PATINA COPPER

This unique finish ranges in from fiery tangerine to bronze greens. Any two sconces will complement, but not exactly match each other. No two pieces are alike.
