VISION

SLAMP REDEFINES LIGHTING
THROUGH AN **IMMERSIVE BACKDROP**
ABLE TO BE TRANSFORMED INTO
POWERFUL, FULFILLED **DESIRE.**

SLAMP VUOLE RIDEFINIRE IL CONCETTO DI ILLUMINAZIONE
IN **SCENOGRAFIE DI LUCE** COSÌ POTENTI DA DIVENTARE BISOGNI

SLAMP:

SLAMP

THE LEADING LIGHT

For **30 years**, our collections—testaments to our dedication to innovation and aesthetic excellence—have uniquely illuminated the art of lighting

Slamp blends industry and craftsmanship, art and design. Founded in 1994 from a creative vision of our CEO and founder **Roberto Ziliani**, who was honored with the **Compasso d’Oro alla Carriera** in 2024, coinciding with the brand’s 30th-anniversary celebrations.

Slamp redefines lighting through an immersive backdrop able to be transformed into powerful, fulfilled desire.

We believe in **relationships** and in the synergistic collaboration between our company and internationally renowned designers and archi-stars, who bring to life truly unique lighting sculptures. Since our founding, we have been deeply committed to a sustainable approach, using durable, recyclable techno-polymers while continuously optimizing material offcuts. Thanks to our cold-cutting techniques and the meticulous design of our production site, Slamp operates with a **low environmental footprint**.

Our ability to experiment allows us to create original shapes, adaptable within space, capable of bringing to life truly unique luminous sculptures. This approach has also led us to embrace new materials such as steel and polycarbonate while preserving the distinctive DNA and recognizable aesthetics of Slamp - crafted through interlocking, cutting, and folding techniques - for **our first outdoor collections**.

Describing something entirely new is a challenge for all languages, which must reinvent themselves to give expression to the unseen. Innovation means imagining and creating what has never existed before. This spirit is epitomized by the **Nuvm Modular System** - a groundbreaking concept that continues to inspire our work and enables designers now to illuminate also outdoor spaces with this unique system.

Our headquarters, just outside Rome, is more than a creative hub and factory—it is a place where ideas and visions grow together, a space designed to be shared with design professionals.

Our doors are always open, as the future is crafted by many hands, united by a shared passion and desire to build something that will endure for generations.

Per **30 anni** le nostre collezioni, testamento della nostra dedizione all’innovazione e alla perizia estetica, hanno proiettato una luce senza uguali sull’arte dell’illuminazione e del design.

Slamp unisce industria e artigianato, arte e design e nasce nel 1994 da un’intuizione creativa del nostro CEO e fondatore **Roberto Ziliani** che ha ottenuto il riconoscimento del **Compasso d’Oro alla Carriera** nel 2024 proprio in concomitanza con le celebrazioni del trentesimo anniversario del brand.

Slamp vuole ridefinire il concetto di illuminazione in scenografie di luce così potenti da diventare bisogni.

Crediamo nelle relazioni e nel rapporto sinergico fra azienda e designer/archistar di fama internazionale che danno vita a vere e proprie sculture luminose uniche nel loro genere. Fin dalla fondazione siamo particolarmente attenti al ciclo virtuoso dei tecnopolimeri resistenti, riciclabili e durevoli e alla costante ottimizzazione degli sfridi di produzione. Grazie alle nostre tecniche di lavorazione a freddo e all’attenzione con cui è stato progettato il sito produttivo, Slamp è un’azienda a basso impatto ambientale.

La nostra abilità di sperimentare, ci consente di creare forme inedite, modulabili nello spazio, capaci di dar vita a vere e proprie sculture luminose uniche nel loro genere e ci ha portato ad accogliere anche nuovi materiali come l’acciaio e il policarbonato pur mantenendo il DNA e l’estetica riconoscibile propria di Slamp, fatto di incastri, tagli, piegature per **le nostre prime collezioni outdoor**.

Raccontare qualcosa di mai visto è una sfida per il linguaggio, che deve reinventarsi per dar voce all’inedito. Innovare significa creare ciò che ancora non esiste, come dimostra il **sistema Modulare Nuvm**, un’idea rivoluzionaria che continua ad ispirare il nostro lavoro e quello dei progettisti che scelgono di illuminare da oggi, anche gli spazi esterni con questo sistema irripetibile unico nel suo genere.

Il nostro HQ alle porte di Roma non è solo un hub creativo e uno stabilimento produttivo, ma un luogo di idee e visioni che crescono insieme e che desideriamo condividere con i professionisti del progetto.

Le nostre porte non si chiudono mai, perché il futuro si progetta a più mani, con chi condivide la nostra passione e il desiderio di costruire qualcosa che duri per generazioni.

ARIA

BY ZAHA HADID

Aria Gold has Cristalflex® arms **metallized in a hyperbaric chamber**; each piece is cut numerically, wrapped, and placed within the shipping box. Clients can rapidly and intuitively assemble the lamp.

Nella Aria Gold le lance in Cristalflex® vengono **metallizzate tramite evaporizzazione in camera iperbarica**, scrupolosamente esaminate, poi tagliate tramite un sistema a controllo numerico e infine inserite nel box, intervallate da uno strato protettivo, al fine di rendere l'installazione da parte del cliente intuitiva e veloce.

ARIA

INFINITA
BY ZAHA HADID

To celebrate the 10th year anniversary of Slamp's collaboration with Hadid Design Studio, Zaha's iconic 2013 Aria takes on new form in a modular version.

In onore del 10° anniversario della collaborazione fra Slamp e lo Studio Hadid Design nasce la versione modulare dell'iconico best seller Aria, firmato da Zaha Hadid nel 2013.

A SINUOUSLY UNDULATES THROUGHOUT SPACE

The illuminated modular system sinuously undulates throughout a space with diverse polycarbonate layers that in the lamp's highest points, reach two meters of visionary fluidity.

La scultura luminosa è composta da un corpo illuminante modulare che crea onde sinusoidali nello spazio, avvolta da layer in policarbonato tutti diversi fra loro.

A CUSTOMIZABLE SYSTEM FOR SITE-SPECIFIC PROJECTS

To celebrate the 10 year anniversary of Slamp's collaboration with Hadid Design Studio, Zaha's iconic 2013 Aria takes on new form in a modular version. The illuminated modular system sinuously undulates throughout space with diverse polycarbonate layers that in the lamp's highest points, reach two meters of visionary fluidity. The lamp's ever-evolving points of view are the fruit of careful research focused on how Lentiflex® enhances and liquifies illumination. Available in both total white and gold finishes: the elements are metallized through a process where an aluminum bar is vaporized in a hyperbaric chamber. The Slamp Team can customize solutions to any space, working alongside designers.

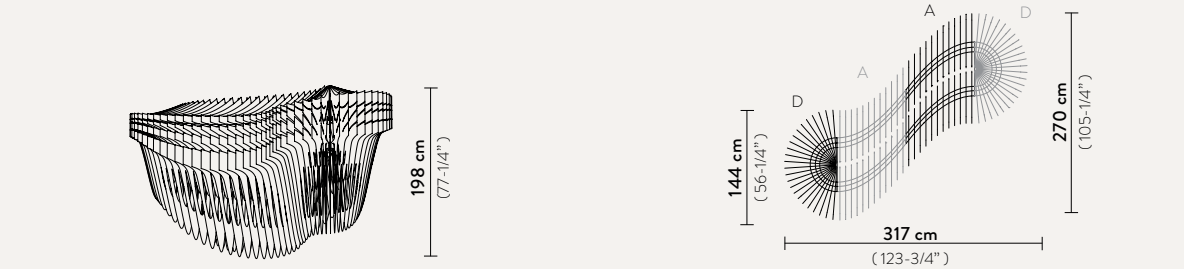

In onore del 10° anniversario della collaborazione fra Slamp e Zaha Hadid Design nasce la versione modulare dell'iconico best seller Aria, firmato da Zaha Hadid nel 2013. La scultura luminosa è composta da un corpo illuminante modulare che crea onde sinusoidali nello spazio, avvolta da layer in policarbonato tutti diversi fra loro che creano un disegno fluido e visionario e che, nel punto più alto della lampada, arrivano ai 2 metri di altezza. Grazie ad un attento studio sulla luce, essa cambia ed evolve a seconda del punto di osservazione: il corpo luminoso è infatti realizzato in Lentiflex®, materiale capace di fluidificare e propagare il flusso luminoso. È disponibile in due finiture, total white e metallizzata in oro, metallizzazione che si ottiene tramite la vaporizzazione di una barretta di alluminio in camera iperbarica. Realizzata su misura per progetti custom.

Lighting/Illuminazione: 4.2W - 220~230Vac/50Hz - 500 Lumen - 3000 Kelvin - IP65 - Bidirectional Integrated LED
Size/Dimensioni: 14 x h 63 cm (base Ø25 cm) | 110V version available.

**Charlotte Bollard Light Gray**

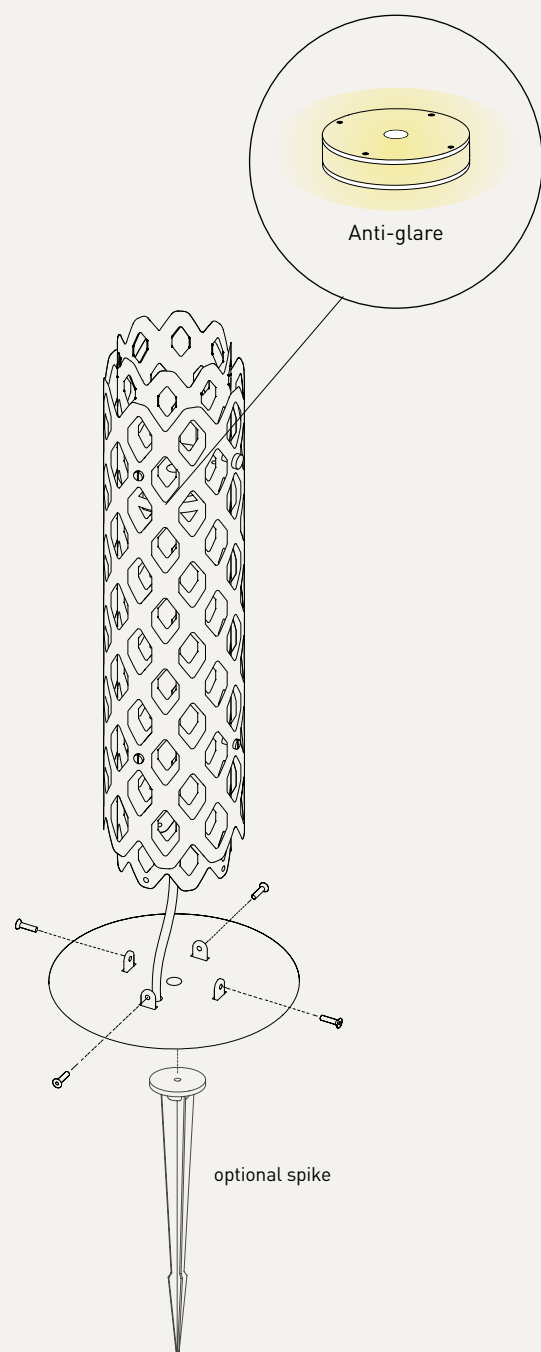

ANTI-GLARE FOR VISUAL COMFORT

The outdoor lighting system engineered by Slamp for the outdoor collections consists of a **bidirectional LED board, operated at 220-230 Vac (110V available)** sealed in resin to provide IP65 protection. The LED board - **designed to minimize direct glare and optimize light distribution** - is housed in a polycarbonate and aluminum case, which offers additional impact protection and improves durability.

Charlotte Bollard (h. 63 cm) is attached to an **aesthetic base** that can be anchored to the ground with screws or **an optional ground spike**.

Il sistema di illuminazione ingegnerizzato da Slamp per le collezioni outdoor è composto da una **scheda LED bidirezionale**, operata a **tensione 220-230 Vac (disponibile 110 V)** sigillata in resina per garantire un grado di protezione IP65. La scheda LED - **progettata per minimizzare l'abbagliamento diretto e ottimizzare la distribuzione della luce** - è posizionata in un alloggiamento di policarbonato e alluminio, che offre ulteriore protezione dagli urti e ne migliora la durabilità.

Il fissaggio di Charlotte Bollard (h. 63 cm) avviene su una **base estetica** che può essere ancorata al suolo con viti o con un **picchetto opzionale**.

NUVEM MODULAR SYSTEM INDOOR

technical details p. 341

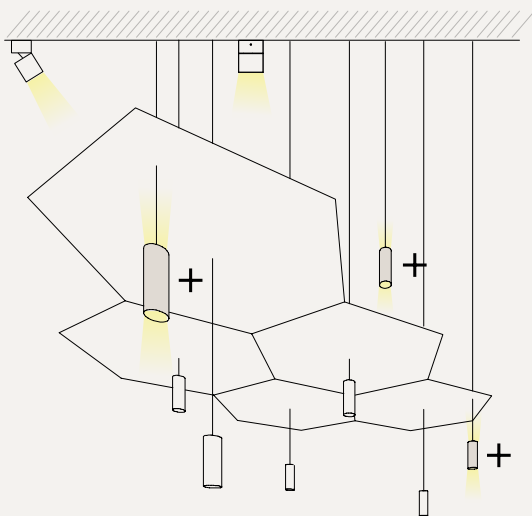

INFINITE EXTENSIONS IN EVERY DIRECTION

The meter-long hexagonal modules are easily connected by hand using a series of interlocking tabs that allow for **limitless omnidirectional installation**.

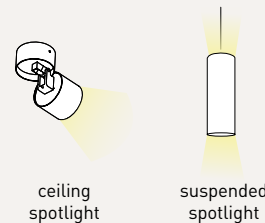

Gli elementi esagonali di un metro quadro, tramite un semplicissimo sistema di connessioni eseguibili a mano, si uniscono gli uni agli altri **espandendosi in ogni direzione**.

PERSONALIZED SPOTLIGHTS

The lighting system consists of **bi-directional suspended spotlights** that can be lowered below the decorative module, passing through the holes in the composition, or raised above the structure. If compositional needs require it, the system offers **directional ceiling spotlights**.

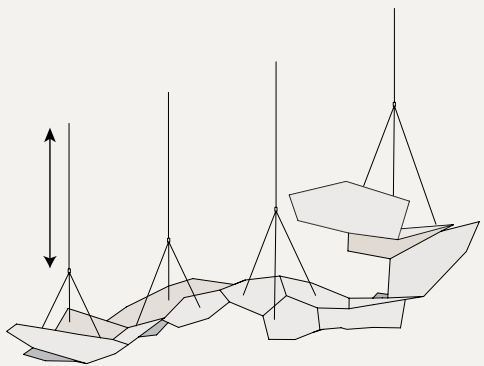

Il sistema luminoso è composto da **faretti bidirezionali sospesi** che possono essere calati al di sotto del modulo decorativo, passando tramite i fori della composizione, o sollevati al di sopra della struttura. Se le necessità compositive lo richiedono il sistema offre **faretti direzionabili da soffitto**.

ceiling
spotlight

suspended
spotlight

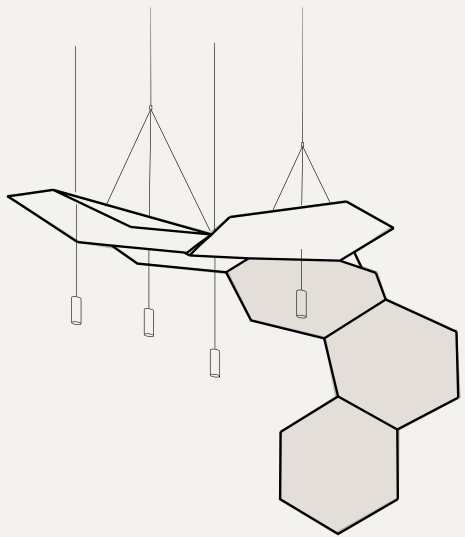

ADJUSTABLE HEIGHT

Nuvem's height can be adjusted using the 6 meter cable, and once suspended, the design can be "molded" using the **push and pull system** located directly beneath each module. The lamp collapses or tenses when the wires are pushed (released) or pulled, giving the ceiling a fluctuating feeling.

Oltre alla regolazione dei cavi fino a 6 metri, Nuvem dà la possibilità di modulare il design dell'oggetto, una volta sospeso, tramite il **sistema "push and pull"** posto direttamente al di sotto del modulo decorativo. Tirando o rilasciando i singoli cavi, la lampada si anima – collassando o stirandosi – per dare forma a un "soffitto" fluttuante.

FROM A LAMP TO A VERTICAL DECORATION

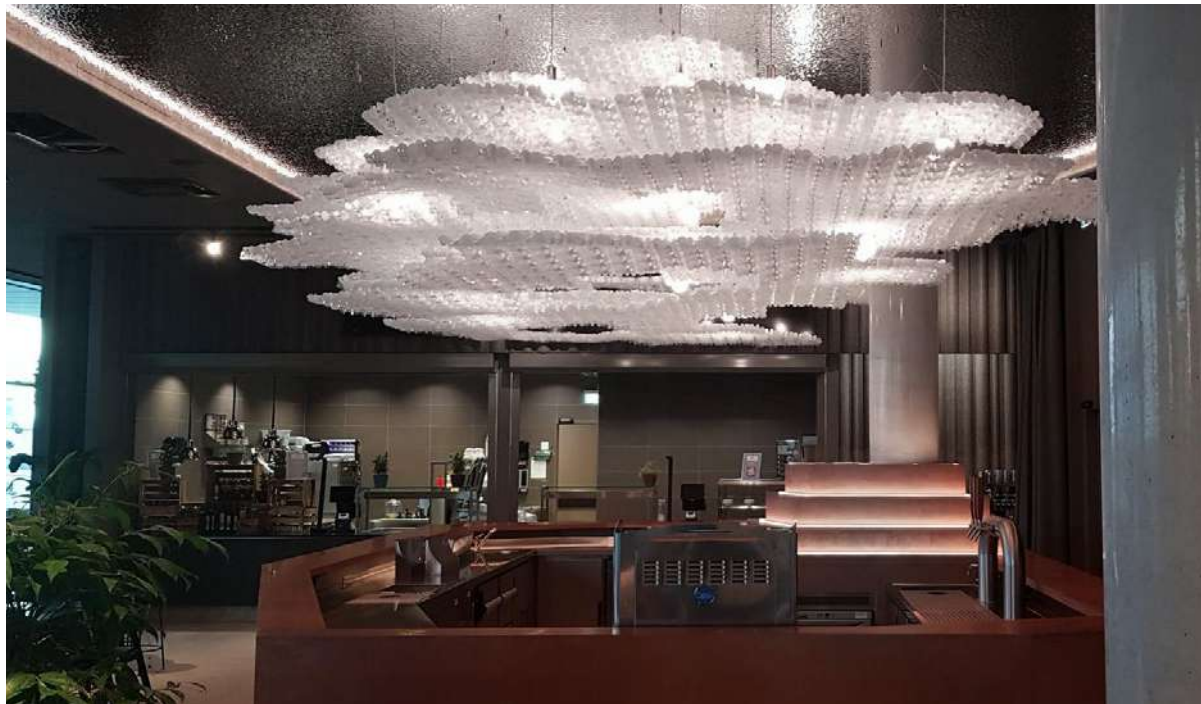

Nuvem goes beyond traditional illumination, with agile anatomy that allows it to transform the **architectural elements of a space**, running across the ceiling and moving down the walls, creating an infinite sky.

Nuvem va oltre la semplice illuminazione tradizionale: l'agilità della sua anatomia le permette di **enfaticizzare gli elementi architettonici** trasformandosi da "soffitto" a decoro, calando sulle pareti per eliminare ogni confine tra cielo e terra della stanza.

EXAMPLE OF CUSTOMIZED LIGHT UNIT

technical details p. 342

OUTDOOR

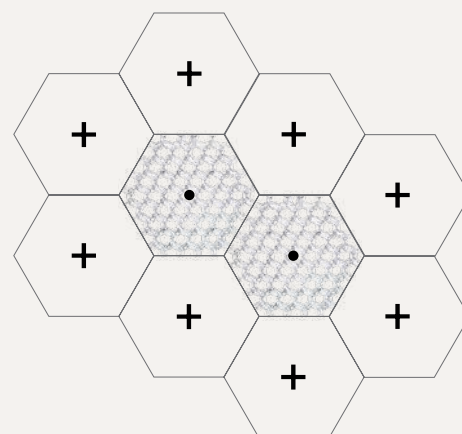

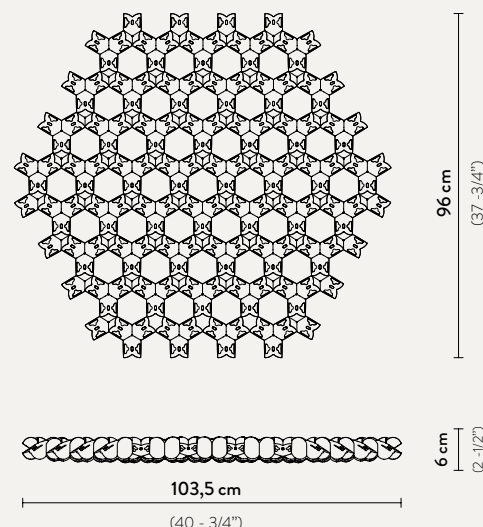

INFINITE EXTENSIONS IN EVERY DIRECTION

The one-square meter hexagonal elements, (96 x 103,5 x h 6 cm) are **connected through a simple system** that allows free expansion in every direction. The connection can be manually handled with the **“clipper” tool**, which allows the modules to be securely fastened together. If necessary, the clips can be removed in order to modify the connections between modules.

Nuvem Outdoor modules are made of **V0 polycarbonate**, classified according to the UL 94 standard, which evaluates the behavior of plastic materials in case of fire. The V0 rating represents the highest level of flame resistance in the Vertical Burning (V) category. A V0-certified material is self-extinguishing and safe for high fire-resistance applications, making it ideal for the lighting sector.

Gli elementi esagonali di un metro quadro (dimensioni: 96 x 103,5 x h 6cm) si uniscono **tramite un sistema di connessioni**, permettendo un'espansione libera in tutte le direzioni. Il **sistema di aggancio** è eseguibile a mano grazie allo **strumento “clipper”** che permette di fissare saldamente i moduli tra loro. All'occorrenza le clip possono essere rimosse per un'installazione flessibile e modificabile senza interventi complessi.

I moduli Nuvem Outdoor sono realizzati in **policarbonato V0**, classificato secondo la normativa UL 94, che valuta il comportamento dei materiali plastici in caso di incendio. La sigla V0 indica il livello più alto di resistenza alla fiamma nella categoria Vertical Burning (V). Un materiale con certificazione V0 è autoestinguente e sicuro per applicazioni ad alta resistenza al fuoco, ideale per il settore di illuminazione.

OUTDOOR

technical details p. 342

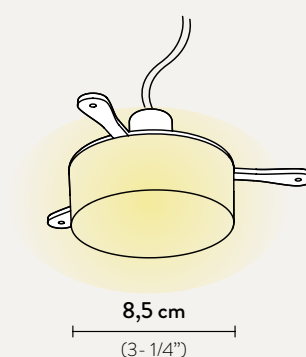

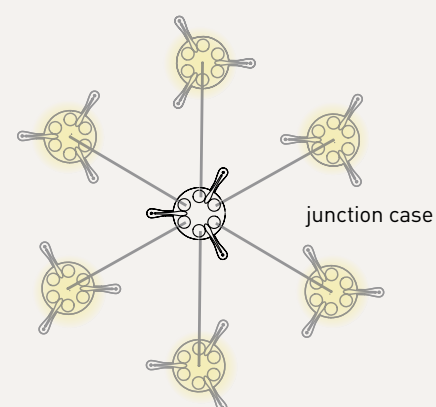

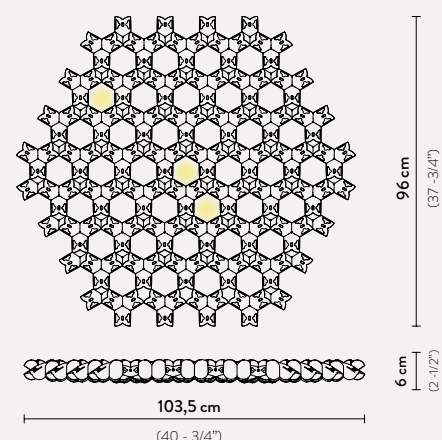

SPOT LIGHT SYSTEM

The **lighting system with Spot**, available for Nuvem Outdoor, consists of integrated 4.2W LED light units that can be added according to the project needs in different points of the composition/individual modules. **Up to 6 Light Units can be connected to a single electrical point**, thanks to a junction light case that allows wires to converge in one location. The cables run discreetly and invisibly across the modules and can be fixed securely in place thanks to wire clamps.

Il **sistema luminoso con Spot** disponibile per Nuvem Outdoor è composto da **unità luminose a LED integrato** da 4.2 W posizionabili in base alle esigenze luminose del progetto in più punti della composizione o del singolo modulo. Possono essere collegate **fino a 6 unità luminose con un solo punto elettrico** grazie al sistema di derivazione che permette ai cavi di convergere in un unico punto e correre sui moduli in modo discreto e invisibile grazie a degli appositi fermacavi.

Single SPOT Light Unit
4.2W - 220-230Vac/50Hz
500 Lumen - 3000 Kelvin
IP65 - Bidirectional LED
(110V version available).

technical details p. 342

OUTDOOR

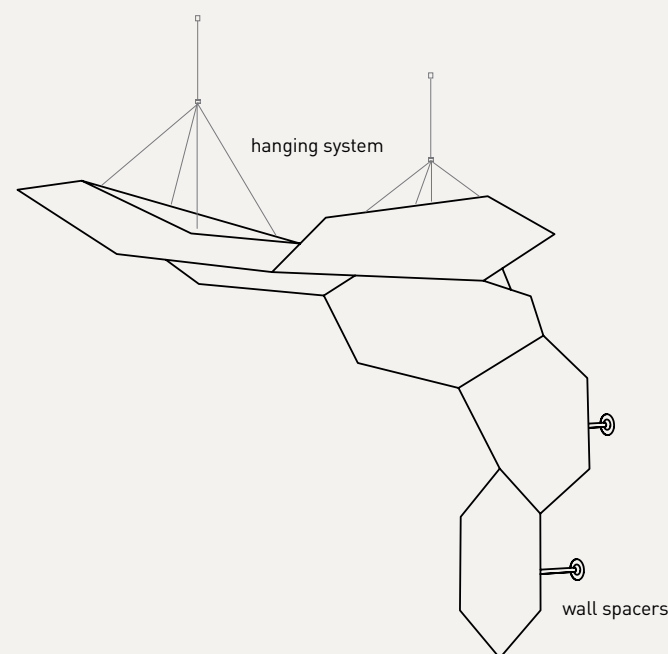

VISUAL IMPACT ON THE SURFACES

The **ceiling anchoring** system is practical and allows for height adjustment of the suspension cables, ensuring maximum configuration flexibility by adjusting each module individually.

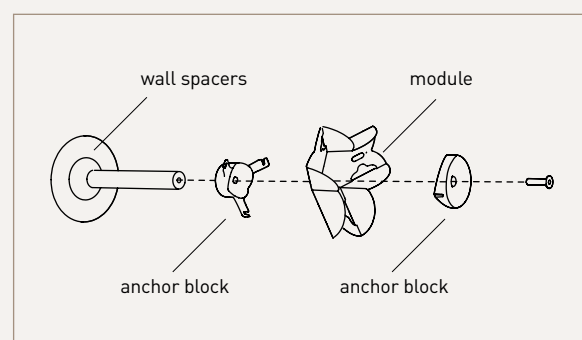

The **wall anchoring system**, thanks to the use of "spacers," offers designers complete freedom in creating decorative Nuvem surfaces. By fixing the modules at different distances from the wall, it's possible to **play with the depth and movement of the composition**.

Il **sistema di ancoraggio al soffitto** è pratico e consente la regolazione delle altezze dei cavi di appendimento garantendo la massima flessibilità della configurazione agendo modulo per modulo.

Il sistema di **ancoraggio al muro** grazie all'utilizzo degli accessori "**distanziatori**" offre al progettista libertà nella creazione di superfici decorative Nuvem. Fissando i moduli a diverse distanze dalla parete, **permette di giocare con la profondità e il movimento della composizione**.

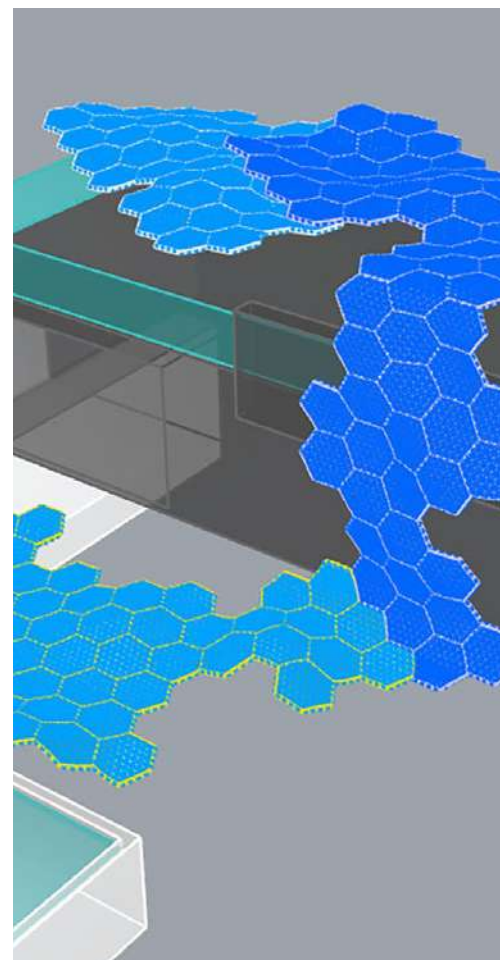

WALL ANCHORING

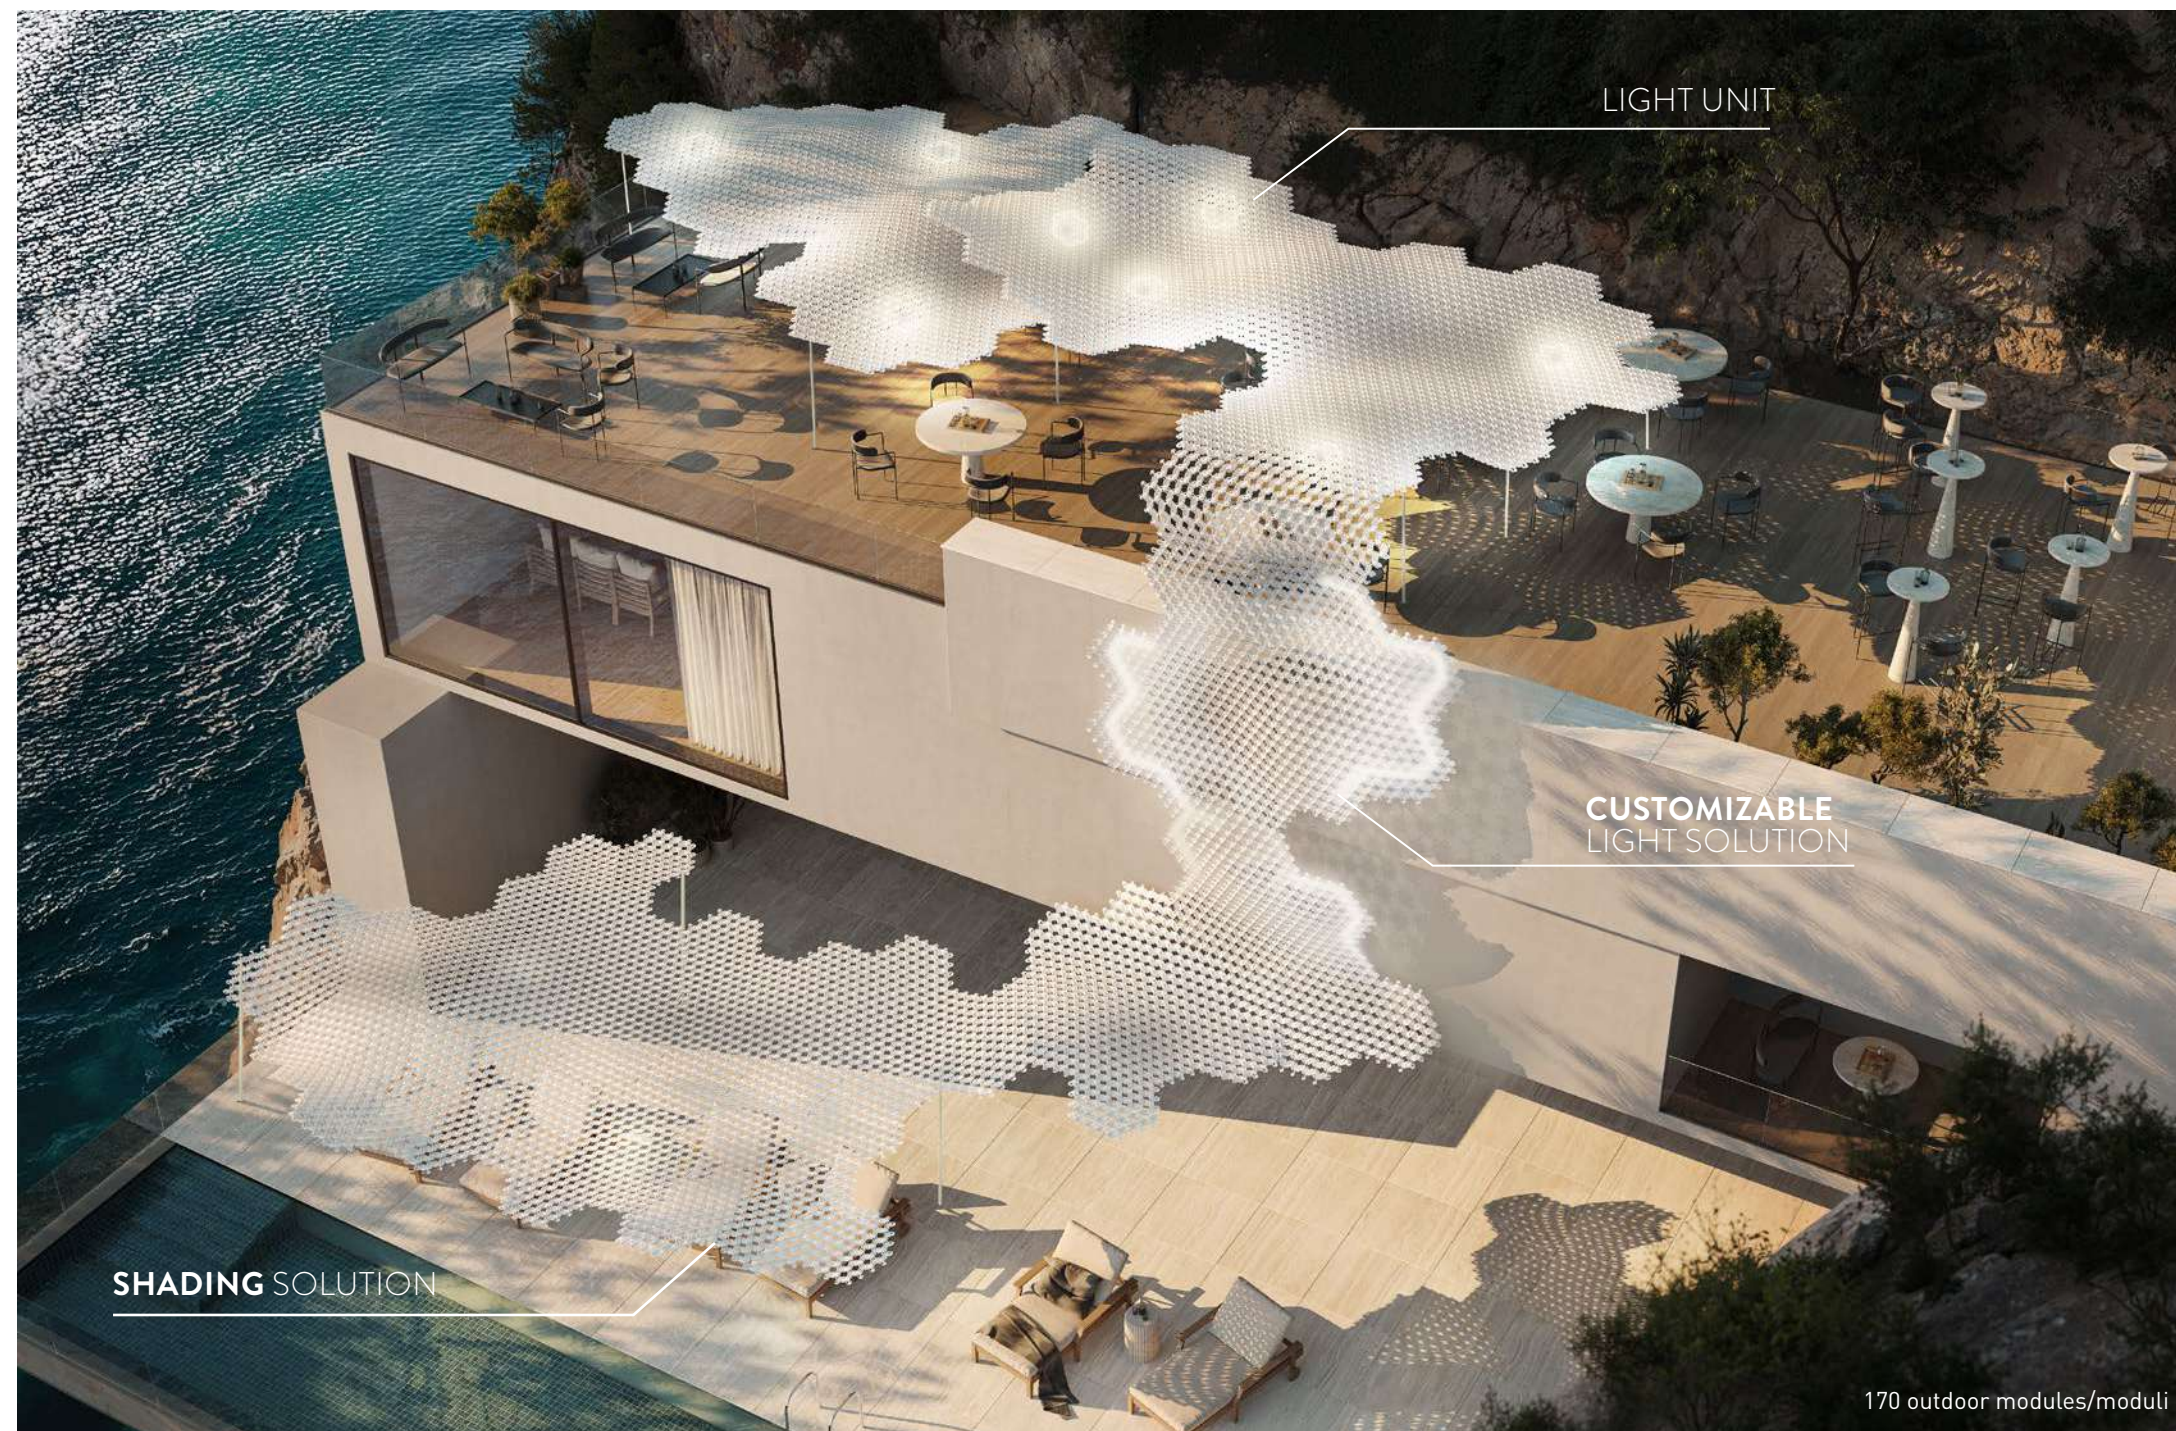

Installation of 40 modules. Installazione di 40 moduli.

PROJECT CONFIGURATION SERVICE

Slamp offers a consulting and design service for the Nuvem system, **guiding clients in the configuration process**, which is fully tailored to the project's characteristics and the specific needs of the space, thanks to the system's standard and customizable accessories.

Slamp offre un servizio di consulenza e progettazione per il sistema Nuvem, **guidando i clienti nella configurazione** che sarà completamente adattata alle caratteristiche del progetto e alle esigenze specifiche dello spazio grazie agli accessori standard e customizzabili del sistema.

CORDOBA

BY DANIEL LIBESKIND

URBAN POETRY BETWEEN ARCHITECTURE AND LIGHT

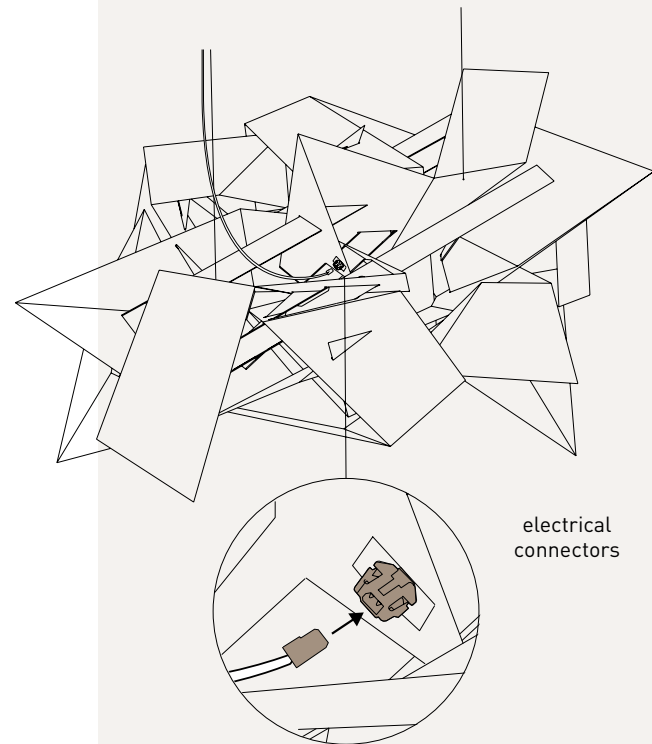

Cordoba is a lamp inspired by **architectural deconstructivism**. In perfect harmony with Daniel Libeskind's famous architecture, Cordoba encapsulates the architect's trademarks: broken lines and fragmented geometries that express his unique design philosophy.

A **mathematical algorithm** combines two dimensional technopolymer sheets into a suspension that harmoniously glows. The light sculpture is **sold fully assembled** thanks to a meticulous study of the packaging and the electrical connection is simplified as much as possible by the use of **connectors**.

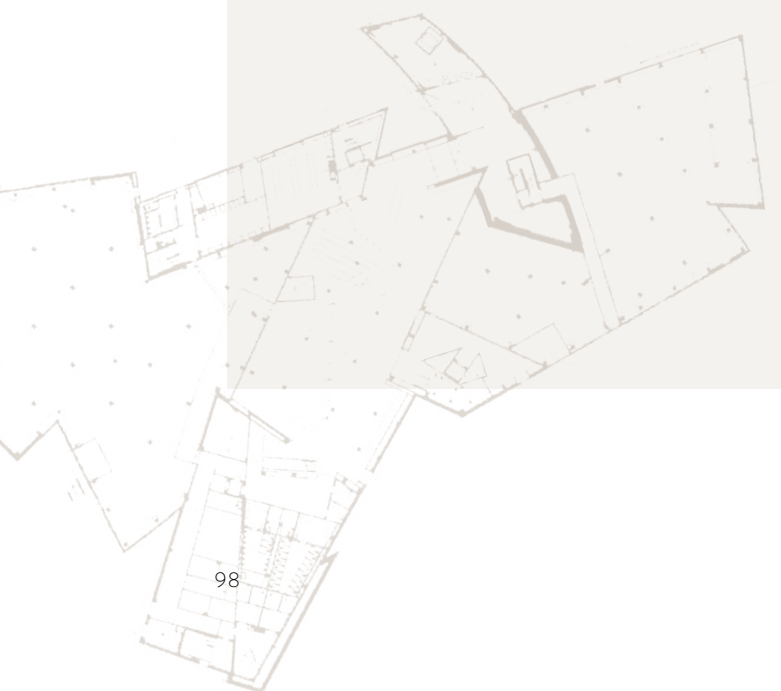

Cordoba è una lampada ispirata al **decostruttivismo architettonico**.

In perfetta sintonia con le celebri architetture di Daniel Libeskind, Cordoba racchiude i tratti distintivi dell'architetto: linee spezzate e geometrie frammentate che esprimono la sua unica filosofia progettuale.

Lastre bidimensionali di tecnopolimeri prendono vita da un **algoritmo matematico** e diffondono la luce in maniera armonica. La scultura luminosa viene **venduta allestita** grazie ad uno studio meticoloso del packaging e la connessione elettrica è semplificata al massimo grazie all'uso di **connettori**.

APPLIQUE OR STEP LIGHT? YOU DECIDE!

Bang collection is made of **cataphoresis treated and powder-coated steel**, ensuring optimal resistance to all weather conditions and the light diffusers are made of safe opaline V0 polycarbonate, branded with Slamp logo.

The **small version** can be wall-mounted or installed as step light thanks to the pentagonal support, easily fixed with screws.

The lighting system is based on a **bi-directional LED board** operating at a voltage of **220~230 Vac (110V available)**, with **IP65** protection.

Bang è realizzata in **acciaio trattato con cataforesi e verniciato a polvere**, che ne garantisce una resistenza ottimale a tutte le condizioni climatiche. I diffusori sono realizzati in policarbonato opalino V0 e brandizzati con il logo Slamp.

La versione **small** è installabile **sia per utilizzo a parete che come segnapassi**, grazie al pentagono di supporto facilmente fissabile con delle viti.

Il sistema di illuminazione è basato su una **scheda LED bidirezionale** funzionante a una tensione di **220~230 Vac (disponibile 110V)** e garantisce un grado di protezione **IP65**.

Composizione Free Standing con 154 boccioli

Ø5 cm x h. 40 cm.
Each bloom is unique and hand-crafted.
Ogni bocciolo è unico e realizzato a mano.

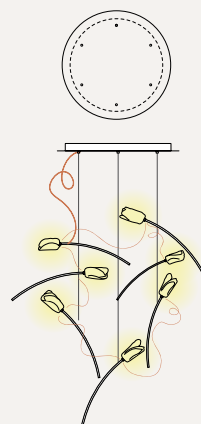

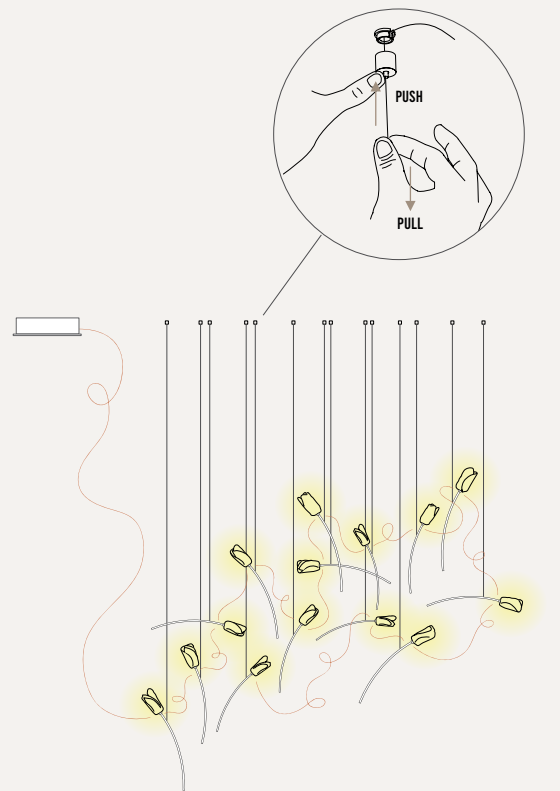

MODULAR IMMERSIVE BACKDROP

Available in multiples of 14 to create striking installations, the Free Standing version is anchored to the ceiling with small brass fixtures. Slamp provides templates to simplify installation and a design service for larger setups.

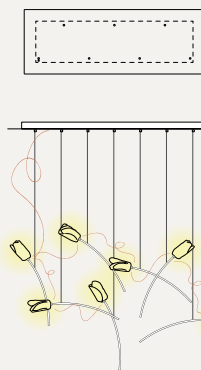

Like the Plug & Play versions with a round or linear canopy of 7 or 14 tulips, the Free Standing version retains the same aesthetic and technical features as the canopy solutions, such as connection to a single electrical outlet and linking multiple light points with the thin twisted copper wire. The height of the steel cables is adjustable using the Push-Pull system, by loosening and tightening the clamp to secure the cable.

Disponibile in multipli di 14 per creare scenografiche installazioni, la versione Free Standing si ancora al soffitto tramite piccoli fissaggi in ottone. Slamp fornisce dime per semplificare l'installazione e servizio di progettazione per grandi installazioni.

Come per le versioni Plug & Play con rosone tondo o lineare di 7 o 14 tulipani, anche la Free Standing mantiene le stesse caratteristiche estetiche e tecniche delle soluzioni con rosone, come la connessione a un unico attacco elettrico e il concatenamento dei vari punti luce tramite il sottile cavo di rame intrecciato. L'altezza dei cavi in acciaio è regolabile con il sistema Push-Pull, svitando e serrando il morsetto per fissare il cavo.

WHITE NUANCES OF CLIZIA

FUMÉ

Created from a mix of transparent Lentiflex® Prismatic and Cristalflex® modules with a light smoky hue, this Clizia finish with an overall “taupe” tone can be warmed slightly by using bulbs with a warmer color temperature.

Nasce da un mix di moduli in Lentiflex® Prismatico trasparente e Cristalflex® dalla leggera tonalità fumè, questa finitura Clizia dal tono complessivo “tortora” può essere leggermente scaldato utilizzando delle lampadine con una temperatura colore più calda.

WHITE

Made of Opalflex®, a material with the ability to diffuse light evenly, it has an opaque white print on the edges of the petals that creates a “chiaroscuro” play with light. The final effect is soft and particularly brilliant.

Realizzata in Opalflex®, materiale dalla capacità di diffondere la luce in modo omogeneo, ha una stampa bianca coprente sui bordi dei petali che crea un gioco di chiaroscuri con la luce. L'effetto finale è morbido e particolarmente brillante.

MAMA NON MAMA WHITE

Made of Cristalflex®, brilliant and transparent like crystal but unbreakable and light. Printed with an opaque white floral pattern whose petals, overlapping, create a soft natural shape that is bright and light. Existing decoration also in black and craquelet gold foil version.

Realizzata in Cristalflex®, trasparente, infrangibile e leggero. Decorato con un motivo floreale bianco coprente, i cui petali sovrapposti creano una forma morbida e luminosa. Disponibile anche in nero e con lamina dorata.

PIXEL

A hi-tech white decoration spreads over the lush volume with naturalistic features of the glass-effect but totally unbreakable Cristalflex® diffuser.

Una decorazione hi-tech bianca si diffonde sul volume rigoglioso con tratti naturalistici del diffusore in Cristalflex® effetto vetro ma totalmente infrangibile.

Lighting / Illuminazione:

Large: 3 x 12W E26/E27 - **Medium:** 2 x 12W E26/E27 - **Mini:** 2 x 6W E12/E14 LED Filament Bulbs.

BENEFITS OF MAGNETIC HANGING SYSTEM

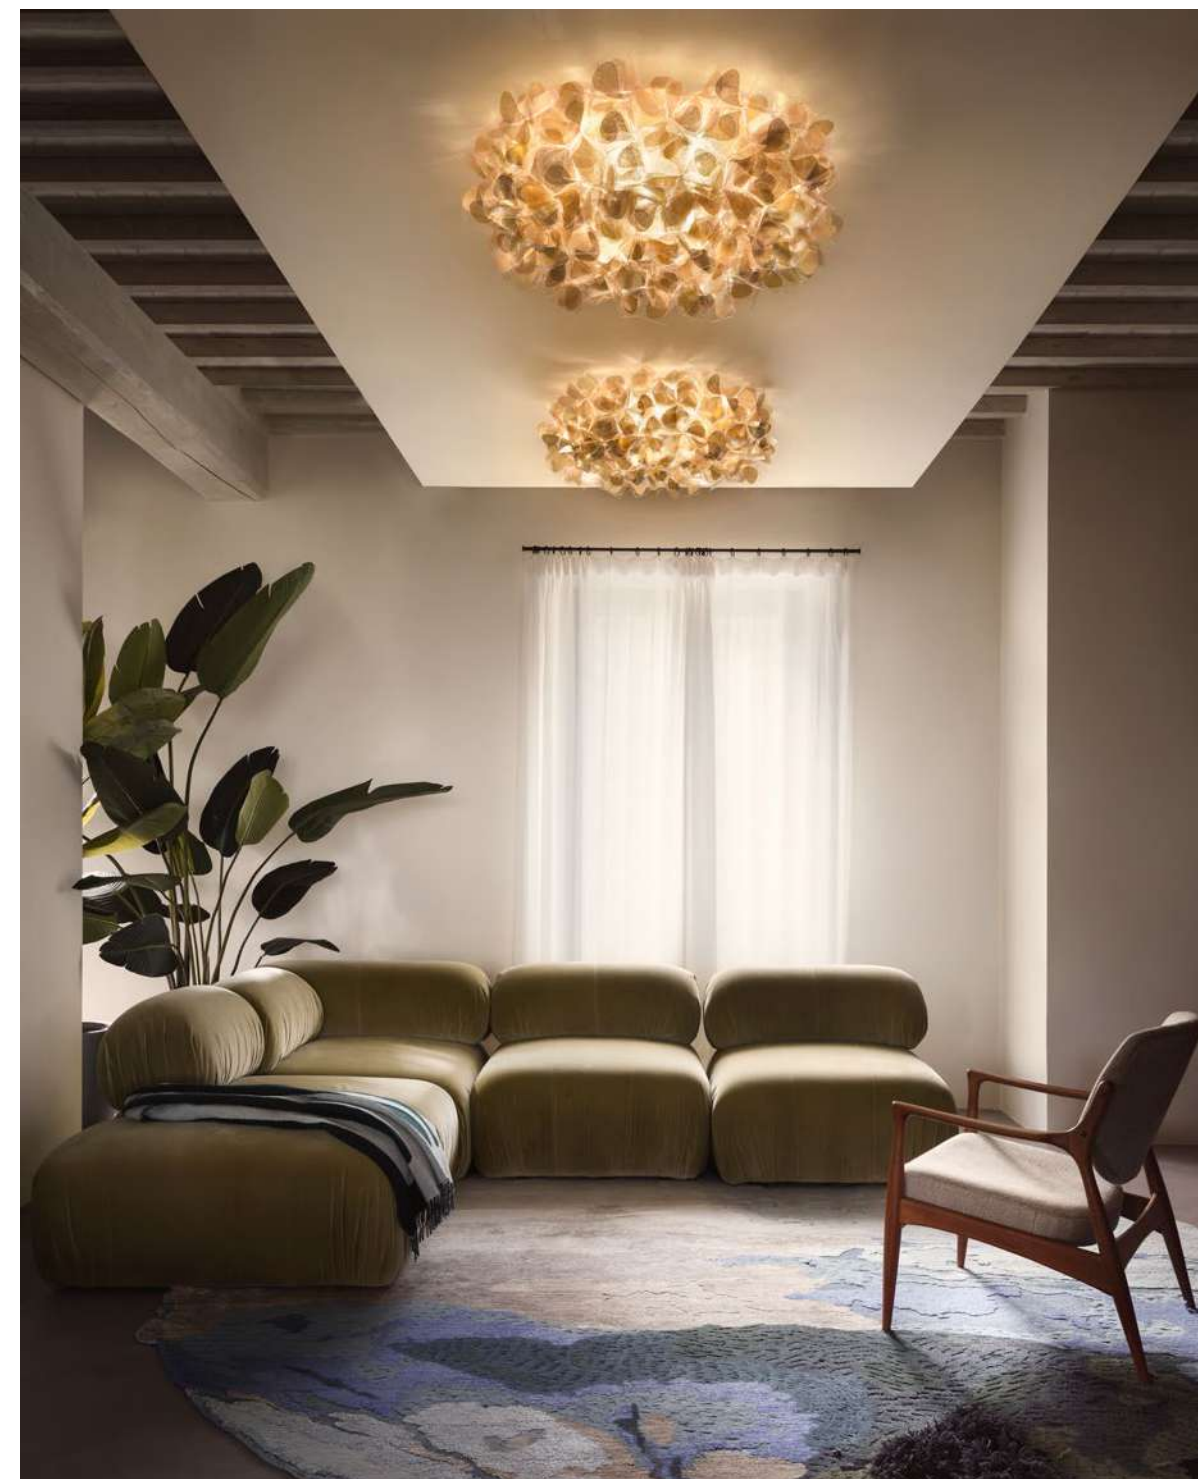

All versions of Clizia collection (Ceiling, Suspension and Table with cable) are equipped with a **magnetic system**, an innovative system that facilitates installation and cleaning of the petals: the decoration detaches from the light source with a simple click.

Thanks to the magnetic attachment, the installation is quick and safe and not only **simplifies the maintenance** of the product in **domestic contexts**, but also proves extremely advantageous for use in **public environments** by simplifying maintenance and cleaning, ideal for ensuring order in high-traffic environments such as offices, hotels and restaurants.

Tutte le versioni della collezione Clizia (Plafoniera, Sospensione e Tavolo con cavo) sono dotate di **attacco magnetico**, un sistema innovativo che facilita l'installazione e la pulizia dei petali: il decoro si stacca dalla fonte luminosa con un semplice click.

Grazie all'attacco magnetico, l'installazione è rapida e sicura e non solo **semplifica la gestione del prodotto in contesti domestici**, ma si rivela estremamente vantaggiosa anche per l'utilizzo **in ambienti pubblici semplificando la manutenzione** e pulizia ideale per garantire ordine in ambienti ad alta frequentazione come uffici, hotel e ristoranti.

Veli 7 è una sospensione scenografica di 130cm di diametro composta da **7 elementi uniti tra loro**.

Veli Table
Lighting/Illuminazione: 1X6W E14/E12 LED Filament Bulb

BENEFITS OF MAGNETIC HANGING SYSTEM

All versions of Veli collection (Ceiling, Suspension and Table) are equipped with a **magnetic system**, an innovative system that facilitates installation and cleaning of the petals: the decoration detaches from the light source with a simple click.

Thanks to the magnetic attachment, the installation is quick and safe and not only **simplifies the maintenance** of the product in **domestic contexts**, but also proves extremely advantageous for use in **public environments** by simplifying maintenance and cleaning, ideal for ensuring order in high-traffic environments such as offices, hotels and restaurants.

Tutte le versioni della collezione Veli (Plafoniera, Sospensione e Tavolo) sono dotate di **attacco magnetico**, un sistema innovativo che facilita l'installazione e la pulizia dei petali: il decoro si stacca dalla fonte luminosa con un semplice click.

Grazie all'attacco magnetico, l'installazione è rapida e sicura e non solo **semplifica la gestione del prodotto in contesti domestici**, ma si rivela estremamente vantaggiosa anche per l'utilizzo **in ambienti pubblici semplificando la manutenzione** e pulizia ideale per garantire ordine in ambienti ad alta frequentazione come uffici, hotel e ristoranti.

POWERED

What appears to be pleated, weightless fabric is actually undulating Lentiflex®, lit by a dimmable LED from within, resting on an anodized aluminum stem.

Quella che ricorda una fascia di tessuto impalpabile e plissettato è in realtà una struttura in Lentiflex® ondulato, illuminata dall'interno da una fonte luminosa LED dimmerabile e sorretta da un grazioso stelo in alluminio anodizzato.

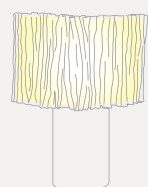

Size / Dimensione:
Ø13 x h. 32,7 cm - Ø5" x h. 12-3/4"

Ligthing / Illuminazione:
1.3W dimmable - 150 Lumen
2700 Kelvin - Rechargeable battery

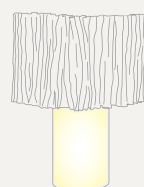

DUAL POSITION ILLUMINATION

The internal structure and clasp match the fluidity of the external plissé diffusor and prevent the accumulation of dust. The lamp has **dual switches, one for the shade and another for the base**. Both light sources can be used together and cast a uniform glow and a cotton-like silhouette. The table lamp's shade and sockets have magnets to facilitate cleaning and changing the bulbs.

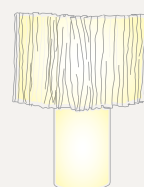

La struttura interna e l'elemento di chiusura superiore della lampada da tavolo sono sagomati per assecondare il movimento del plissé ed evitare il depositarsi della polvere. La lampada è dotata di doppia accensione, permettendo di **accendere il diffusore indipendentemente o contestualmente alla base**, che si illumina in modo uniforme ricreando la trama di un tessuto di cotone. Sia il diffusore che i portalampe sono dotati di attacco magnetico per agevolare pulizia e sostituzione delle lampadine.

AURORA

BY NIGEL COATES

technical details p. 321

Idea Wall Recessed

Placed within drywall for a floating effect. Dimmable G9 LED bulbs make for easy substitution. Incassata per un effetto a scomparsa. Lampadina G9 a LED dimmerabile e facilmente sostituibile.

technical details p. 335

15 x 15 cm

Idea Recessed includes a drywall panel: simply create an opening in the wall, connect the lamp's wires, and apply stucco over the panel for an enchanting effect; a luminous, floating lightbulb.

Idea Recessed è dotata di un pannello di cartongesso: è sufficiente forare la parete, cablare la lampada e stuccare il pannello per ottenere un magico effetto di sospensione del bulbo luminoso sulla parete.

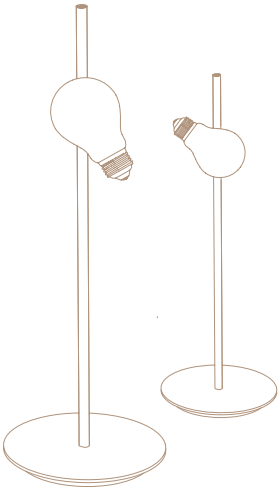

MARCANTONIO

By removing everything structural and decorative, what remains is the distillation of light: a lightbulb with a golden base, “magically” suspended on a brass arm. The **G9 light** source is easily changed by simply unscrewing it from the base.

Eliminato tutto ciò che in un corpo luminoso è un surplus di elementi decorativi, ciò che resta è la vera essenza della luce: una lampadina con virola dorata “magicamente” sospesa su un’asta di ottone spazzolato. La fonte luminosa **G9** all’interno della virola è svitabile per essere sostituita agevolmente.

The bulb angle can differ from lamp to lamp and is not predetermined.

L’inclinazione del bulbo sull’asta potrebbe differire tra un pezzo e l’altro e non è predeterminabile.

TECHNICAL DETAILS

ELECTRICAL INFORMATION - INFORMAZIONI ILLUMINOTECNICHE

The information in this section of the catalogue refers to electrical **STANDARDS WITH A VOLTAGE OF 220V**. The electrical installation components and other accessories may vary depending on the regulations of different countries; please contact us for more information.

Le informazioni contenute in questa sezione del catalogo si riferiscono a **STANDARD ELETTRICI A TENSIONE DI 220V**. Le componenti e le caratteristiche per installazione elettrica possono variare a seconda delle normative dei diversi Paesi; contattateci per maggiori informazioni.

BULBS WATTAGE - WATTAGGIO LAMPADINE

The wattage of the light bulbs is suggested for an optimal balance between luminous output and product aesthetics and should not be considered as the maximum power that can be installed on the product. Where explicitly recommended, please follow the indicated bulb size and diameter.

La potenza delle lampadine è suggerita per ottenere un equilibrio ottimale tra resa luminosa ed estetica del prodotto e non deve essere considerata come la potenza massima che si può raggiungere con le lampadine e non deve essere considerata come la potenza massima installabile sul prodotto. Dove esplicitamente consigliato, attenersi alle dimensioni e al diametro della lampadina indicati.

DIMMING SYSTEM - SISTEMI DI DIMMERAZIONE

Lamps marked as dimmable are intended to be so only if the electrical system has been prepared for such light variation. Ensure before ordering that the product’s standard or accessory dimming system is compatible with this setting. This is different for floor lamps and battery-powered lamps marked as dimmable, as their dimmer is integrated.

Le lampade contrassegnate come dimmerabili sono da intendersi tali solo se l’impianto elettrico è stato predisposto per tale variazione di luce. Assicurarsi prima dell’ordine che il sistema di dimmerazione standard o accessorio del prodotto sia compatibile con tale predisposizione. Questo è diverso per le lampade da terra e le lampade a batteria contrassegnate come dimmerabili, in quanto il loro dimmer è integrato.

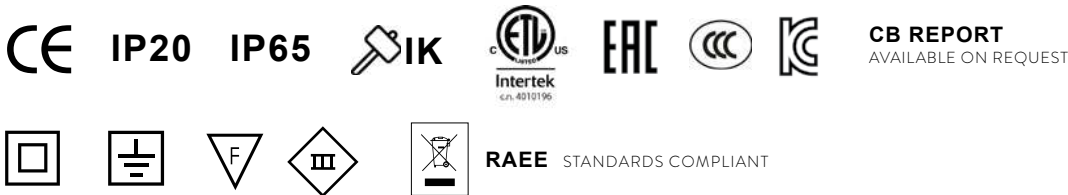

HANDMADE PROCESS - PROCESSO MANUALE

Slight differences of colour/size are due to the handmade processes involved, every piece is unique. Slamp reserves the right to modify products without notice in the event of commercial conditions rendering this necessary.

Lievi differenze di colore/dimensioni sono dovute alla lavorazione manuale, ogni pezzo è unico. Slamp si riserva il diritto di modificare i prodotti senza preavviso nel caso in cui le condizioni commerciali lo rendano necessario.

CERTIFICATIONS - CERTIFICAZIONI

Slamp products comply with international electrical standards. For country-specific certifications, please contact us for more information. I prodotti Slamp sono conformi agli standard elettrici internazionali, non esitate a contattarci per certificazioni specifiche per paese.

LA LOLLO SUSP XL

Light Source: 130W - 85~265 V - 15.000 Lumen - 2.700 Kelvin - CRI >90, Integrated LED

Dimmable: Triac, PWM 0-10

Additional dimming system Dali, Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

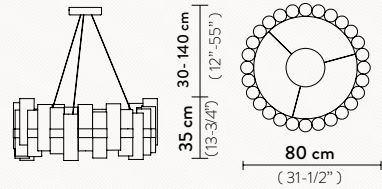

LA LOLLO SUSP LARGE

Light Source: 80W - 170~240 Vac/24 Vdc - 9.000 Lumen - 2.700 Kelvin - CRI >90, Integrated LED

Dimmable: Triac Trailing Edge

Additional dimming system Dali, Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

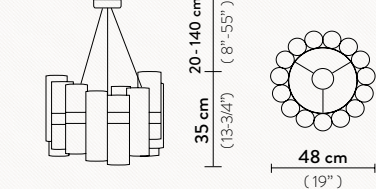

LA LOLLO SUSP MEDIUM

Light Source: 40W - 170~240 Vac/24 Vdc - 4.600 Lumen - 2.700 Kelvin - CRI >90, Integrated LED

Dimmable: Triac Trailing Edge

Additional dimming system Dali, Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

LA LOLLONA 5

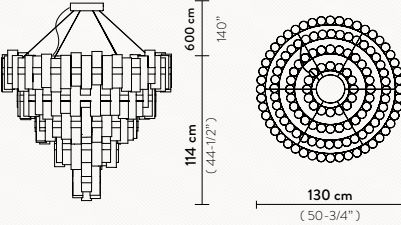

Light Source: 390W - 100~240 Vac/24 Vdc - 44.555 Lumen - 2.700 Kelvin - CRI >90, Integrated

Dimmable: PWM, 0-10

Additional Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

Product's diameter can be customized for the project. Technical lighting details will be adapted to the specific project.

LA LOLLONA 4

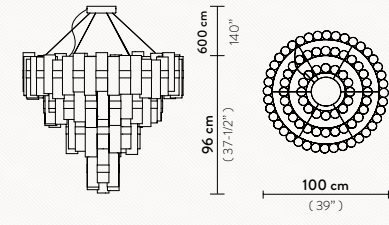

Light Source: 242W - 100~240 Vac/24 Vdc - 28.140 Lumen - 2.700 Kelvin - CRI >90, Integrated

Dimmable: PWM, 1-10

Additional Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

Product's diameter can be customized for the project. Technical lighting details will be adapted to the specific project.

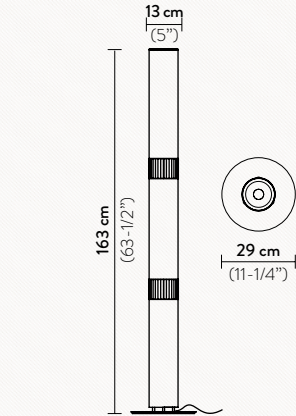

LA LOLLO FLOOR

Light Source: 3 X 12W E27 LED Filament Bulbs

Dimmable: with dimmable bulbs

Materials: Lentiflex®, Cristalflex, Opalflex® with cold foil

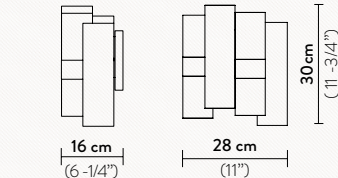

LA LOLLO APPLIQUE

Light Source: 2 X 6W E14 LED Filament Bulbs

Dimmable: with dimmable bulbs

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

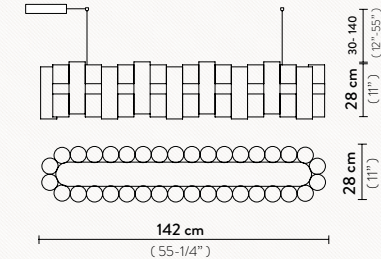

LA LOLLO LINEAR 140

Light Source: 110W - 85~265 V - 12.420 Lumen - 2.700 Kelvin - CRI >90, Integrated LED

Dimmable: Triac, PWM 0-10

Additional dimming system Dali, Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

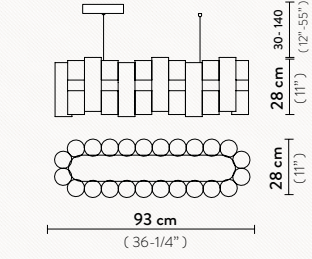

LA LOLLO LINEAR 100

Light Source: 70W - 170~240 Vac/24 Vdc - 7.820 Lumen - 2.700 Kelvin - CRI >90, Integrated LED

Dimmable: Triac Trailing Edge

Additional dimming system Dali, Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil, Pewterflex®, Opalflex®

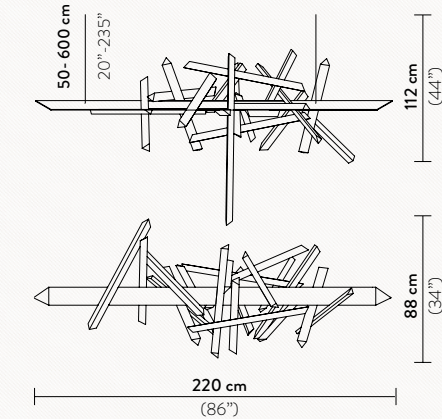

LA TRAVIATA 220

Light Source: 86,4W - 100~240V - 7.500 Lumen - 3.000 Kelvin - CRI >90, Integrated LED + 13 X 1W Integrated LED

Dimmable: dimmable with Casambi or DMX

Additional dimming system Dali upon request.

Materials: Lentiflex®, Methacrylate

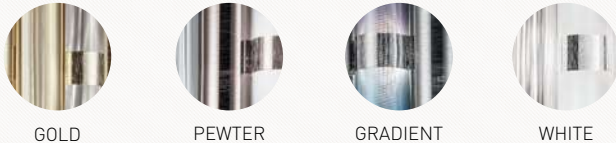

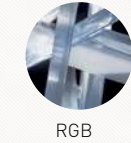

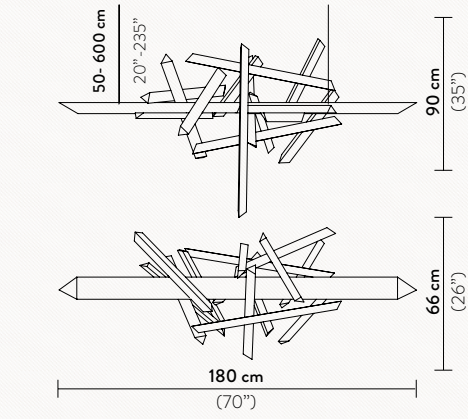

LA TRAVIATA 180

Light Source: 70,8W - 100~240V - 6.150 Lumen - 3.000 Kelvin - CRI >90, Integrated LED + 9 X 1W Integrated LED

Dimmable: dimmable with Casambi or DMX

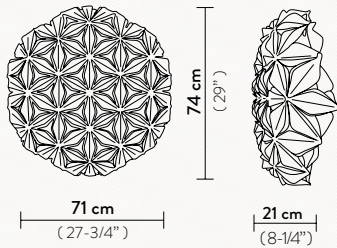

Additional dimming system Dali upon request.

Materials: Lentiflex®, Methacrylate
